January 30 Crossed the line

March the 7<sup>th</sup> Came to off fair haven

*[Faint handwritten signature]*

The first of these is the fact that the  
 system is not a simple one, but a  
 complex one, involving many factors  
 which are not yet fully understood.  
 The second is the fact that the  
 system is not a static one, but a  
 dynamic one, which is constantly  
 changing and evolving.

The first of these is the fact that the  
 system is not a simple one. It is a  
 complex one, and it is not possible to  
 describe it in a few words. It is a  
 system of many parts, and it is not  
 possible to describe it in a few words.
